Section 3. Regular School Year

1. Migrant Summer Scholar Program

Provide an overview description of your service/allowable activity.

Due to their migratory nature of migrant students moving in and out of the district for a large part of the academic school year, there is a need to provide additional academic opportunities in order to address significant academic gaps. Our migrant students start their academic year in the beginning of April and continue until the end of October. The Davis Migrant Center is located approximately 10 miles outside the city limit of Davis and students require daily transportation. Transportation and safety is crucial and a bus Attendant is contracted in order to supervise students and insure safety and communication as the bus driver is not always bilingual. Academic gaps most present themselves in the area of language arts and math, To address these gaps targeted instruction in reading, math and English Language Development are the focus areas of the Migrant Summer Scholar Program. Music instruction and robotics are added components of the program structure in order to increase student engagement and provide enrichment opportunities. Migrant Summer Scholar Program staff will provide an intensive six-week summer program at Marguerite Montgomery Elementary focused on language arts, math and integrated English Language Development through science and a robotics program K-6th grade. The level of instruction will be at students' identified instructional level based on pre-assessments administered by the Assessment Teacher. The Assessment Teacher will also coach staff on analyzing assessment data in order to modify instruction and regroup students based on needs. Furthermore, the Assessment Teacher will administer post-assessments to measure and record student growth. The administrator and staff analyze this data, measure student growth and program effectiveness in order to evaluate instruction and program effectiveness. In order to connect the learning in the classroom to real-life examples, students will attend two academic excursions. Since Life Sciences will be the focus of ELD/Science units all students will have two culminating academic excursion activities that include the CA Railroad Museum and the Academy of Science in San Francisco.

All lessons of study within the program will be of cultural relevance to migrant students and responsive to their needs. The materials and literature will be reflective and inclusive of their cultures and experiences. This spring, staff attended the California Association for Bilingual Educators (CABE) conference in search of reading materials and pedagogical approaches to better target the needs of English Learners. The music program is also critical

cultural component in building cultural awareness and pride. Appreciation of music and interest in joining music and band during the regular school-year especially 4th-6th graders who learn to play violin and are able to join our Mariachi Puente Youth Group.

At the conclusion of Migrant Scholar Program at the end of July, all Migrant students Kinder-6th grade will participate in culminating music performance put on by staff and students in order to share with parents what they learned.

Marguerite Montgomery Elementary

What is the need for this service/allowable activity based on the data?

An average of 18% of Migrant students in Davis Joint Unified School District (DJUSD) in grades 3rd-12th scored standards met on the California Assessment of Student Performance and Progress (CAASPP) in English language arts. In math, an average of 18% of Migrant students scored standards met on CAASPP. The overall achievement gap between migratory and non migratory students is 51% in both ELA and Math. Through the

creation of innovative programs that focus on academic, social, and emotional learning the ELLs can start with close this opportunity and achievement gap.

Plan

Describe the plan for this service/allowable activity

Key skills to be learned:

The key skills that the students will learn are the higher order thinking skills that are part of the Graduate Profile. Every student in Davis Joint Unified School District will be developing the following competencies :

- Critical Thinking and Problem Solving
- Adaptability and Resilience
- Collaboration
- Communication
- Civic and Cultural Awareness
- Creativity and Innovation

These skills and competencies will be developed and integrated into core curriculum lessons and activities as well as through enrichment activities such as music and robotics.

Student/teacher ratio:

A total of four combination classes clustered kinder-1st, 2nd -3rd, 4th-5th and 6th will support all migrant students. Student to teacher ratio on average will be 15 to 1. A total of four teachers will provide direct and group instruction in the clustered classes in the area of English Language arts, Math, Integrated Science and ELD.

Instructional strategies:

Instructional strategies will include supplementary English language arts support and direct instruction in reading and writing. The goal is to target students scoring below or near standard in order to gain proficiency in grade level standards (Principle Strategy 1.0). During reading block students will read a variety of non-fiction texts that build content learning and help develop reading comprehension. Students will also receive instruction on how to ask and answer questions to demonstrate understanding of a text.

Student grouping method:

Small group instruction and rotations will take place across K-6th grade. Blocks of instruction will be small-group rotations to target reading, writing, phonics and spelling using balanced literacy strategies in the SONDAY reading and writing program. Imagine Learning and MobyMax computer based programs will be utilized in order to allow for small group rotations and differentiation to happen.

How instruction will be differentiated:

Instruction will be differentiated through small group instruction in order to ensure that students receive reading, math and English language development support at their specific and instructional level. Computer based programs such as Imagine Learning and MobyMax will also be used to support students gain extra practice at their instructional level.

Other strategies besides the SSDP strategies identified for the focus areas:

Integrating science and English language development is another instructional area of focus in order to support language development as well as exposure to Next Generation Science Standards (NGSS). Physical science units using the Lawrence Hall of Science's Curriculum will focus on exposure to Sound and Light in grades 2-3rd,

What SSDP strategies will be used to deliver this service/allowable activity?

English Language Arts

- ☑ **Principle Strategy 1.0** - Provide supplementary ELA services with a focus on reading and writing for students with targeted intervention for students who are scoring Below or Near Standard.
- ☑ **Strategy 1.1** - Provide migratory students with opportunities to read various types of expository texts (description, comparison, cause and effect, problem and solution).
- ☑ **Strategy 1.2** - Provide migratory students with opportunities to write within various contexts. Integrate instruction for one writing genre unit for program services as appropriate. For example, supplementary technology engineering and mathematics services should have a strong writing component focusing on writing.
- ☑ **Strategy 1.2a** - Provide students with a rubric that outlines the elements required by the genre to write an example and identifies what is needed for different levels of writing proficiency.
- ☑ **Strategy 1.3** - Provide training in writing instruction during staff development workshops to ensure that teachers and instructional aides provide clear, structured writing instruction.

Mathematics

- ☑ **Principle Strategy 2.0** - Offer supplemental math services focused on teaching concepts and procedures, problem solving and modeling data for migratory students scoring Below Standard on either Claim 1 or Claim 2.
- ☑ **Strategy 2.1** - Offer Math Literacy Family Nights, targeting PFS and migratory students scoring Below Standard focused on math CCSS and learning strategies to use at home.
- ☑ **Strategy 2.2** - Provide professional development opportunities for MEP staff to understand student math data, increase their knowledge and skill set for teaching concepts and procedures, problem solving and communicating and reasoning in mathematics.

English Language Development

Strategies will be finalized once ELFAO initial and summative assessments become operational and data is available in 2018-19.

Student Engagement

- ✔ **Principle Strategy 13.0** - Services offered to migratory students need to have a cultural component
- ✔ **Strategy 13.1** - Increase student engagement by incorporating activities into services that build migratory students' self-pride (e.g., confidence, self-worth, etc.).
- ✔ **Strategy 13.2** - Provide professional development to staff on cultural competency.

Section 10. Identification and Recruitment

For this section include any and all Identification and Recruitment (I&R) activities that will be provided during the year

Eligible migrant students will be identified and recruited in a proper and timely manner.

To qualify for the Migrant Education Program, a child is considered "migratory" if his or her parent or guardian is a migratory worker in the agricultural, dairy, lumber, or fishing industries or the child is actually a migratory youth (OSY) who works in agricultural, dairy, lumber, or fishing industries. In addition, the youth or family must have made a qualifying move during the past three years. A qualifying move can range from moving across school districts or from one state to another for the purpose of finding temporary or seasonal employment. The eligibility for the MEP is three years from the date of the last move, and eligibility is established through an interview conducted by a migrant education recruiter who visits the home, employment, or other community locations.

I & R Program Overview

Provide an overview of your organizational structure, including the activities and personnel that are administered by the agency and the activities and personnel that are administered by subgrantees through a DSA or MOU if applicable.

I & R Quality Control Plan

Provide a copy of the Region's I&R Quality Control Plan as a separate document to the application. *The Region's Plan is modeled after the States Quality Control Plan; however, the States Plan may not be substituted in lieu of the Region's Plan.*

What are the roles and responsibilities of your I&R staff members within the region's or district's quality control process?

Describe how you will utilize I&R staff to identify and recruit eligible migrant students; include the community-based and school-based activities.

Local Community

What are the characteristics of the community in your local recruiting area?

Migration Pattern Adjustment

What strategies will your I&R staff employ to look for families outside the traditional locales? In some communities migration patterns are well established and recruiters know where migrant families and youths live; however, employment, and housing patterns change over time.

Regional I&R Coordination

How will your I&R staff coordinate recruitment activities with local districts to create effective recruitment plans? How do you ensure that recruitment efforts are robust without being duplicative?

Recruitment Activities

Provide the numbers of individuals assigned to conduct eligibility interviews and make eligibility determinations equivalent to that they spend performing I&R activities, and how and where the recruiting is carried out.
