Re: Support for AB 479: Healthy, Climate-Friendly School Lunch Act

Dear Assembly Member Nazarian,

We write to unanimously express our support for the Healthy, Climate-Friendly School Lunch Act, AB 479. AB 479 would help provide increased access for our low-income communities to healthy, quality meals. Many low income students fall into the achievement and opportunity gaps and we believe that access to nutritious meals plays an essential role in helping to close those gaps. As an environmentally-conscious school district, we support measures that do their part in reducing our collective carbon footprint and make our children's future as clean and bright as possible.

Thank you for your efforts on this important topic. We support your continued fight for healthy and climate-friendly meals for our children.
