DAVIS JOINT UNIFIED
SCHOOL DISTRICT

Fall 2019-20 Report

Student Population Forecast

Fall 2020-21 to 2024-25

Presented to the
DJUSD Board of Education
March 19, 2020

Goals

Understanding Enrollment Trends

- Enrollment Factors
- Recent Trends
- Future Analysis

Strategies to Manage Trends

- Trends vs. Anomalies
- Promote Enrollment
- Program Enhancements

Enrollment Factors

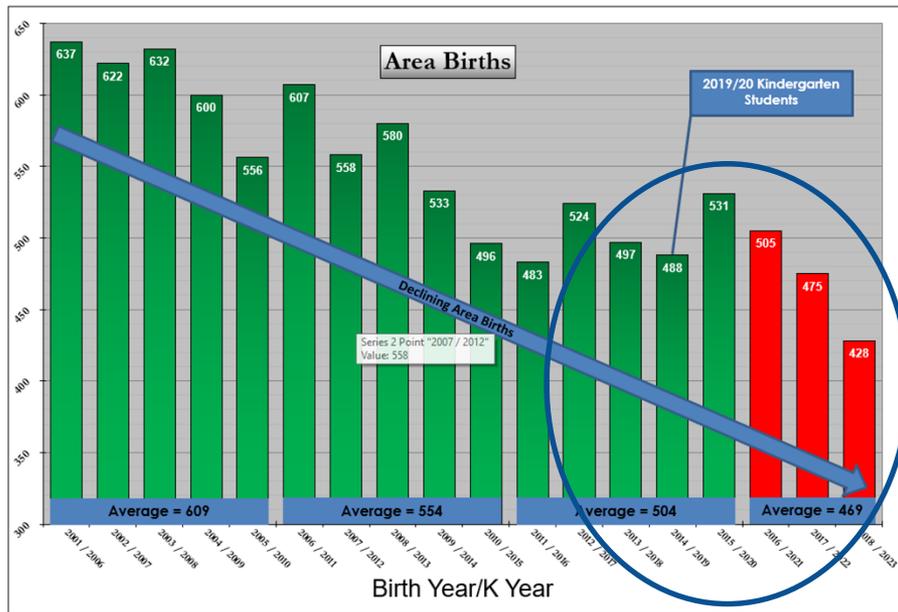

Birth Rate – Future Kindergarten

Cohort Analysis

- i. Exiting 12 grader to incoming Kindergarten Cohort (Growth or Decline)
- ii. Students exiting out (cohort survival)
- iii. Students entering in (mobility and housing growth)

Past Trends - Enrollment Factors

Birth Rate – Future Kindergarten

Comparison of Births vs. Kindergarten ¹			
Birth Year / K Year	Birth Total	Resident K Class ²	Capture Rate
2009 / 2014	533	560	105%
2010 / 2015	496	539	109%
2011 / 2016	483	494	102%
2012 / 2017	524	509	97%
2013 / 2018	497	523	105%
2014 / 2019	488	495	101%
Average Capture Rate			103%

1. Does not include TK Students
2. Does not include K students residing outside of the district boundaries

2015 Births x 2014 Capture Rate = 2020/21 K Class
531 x 1.01 = 536

Mobility

Past Trends - Enrollment Factors

Mobility Rate

* Excludes Out of District

Denotes Top 2
Denotes Bottom 2

This analysis is not the average Mobility for each year. These numbers are the overall mobility for each grade regardless of where the students reside.

Each grade mobility is based upon the previous three (3) years of student data.
