

Summary of Contracts - June 18, 2020

Vendor	Product Description	Site
Instructure	DJUSD will be adopting Canvas as a district-wide Learning Management System (LMS). The Canvas platform will be used to build a digital teaching and learning environment in DJUSD. It will provide a place for sharing instructional content, communication, collaboration, professional development modules, shared resources and more. This is a five (5) year agreement. This agreement replaces and incorporates the agreement approved May 7, 2020, for Canvas at YSCTC.	Instructional Technology
Securly, Inc. and Howard Technologies	Securly is a platform that provides student safety and device management for Chromebooks; a cyber tip line; and web filtering for 1:1. This is a three (3) year agreement. Howard Technologies is the third-party vendor DJUSD will use to purchase Securly.	Instructional Technology
