**Subject:** PUBLIC COMMENT FOR LCP

**Categories:** Blue category

Hello,

My name is Lupita and I am a concerned parent with a child in the Davis Joint Unified. I submitted a public comment two weeks ago, and another in the beginning of the meeting and it was not read during public comment, nor was the email I sent two weeks ago referenced in the agenda, the way Juliette's email that she sent last meeting was. This seems to be a type of discrimination. Why are you uplifting some parent's voices while not uplifting others? You are not allowed to censor or pick and choose whose voices you wish to make public. Please add my public comment from the last board meeting into today's agenda. Both of them, because there were two opportunities to add our opinion. I as an individual parent, do not approve of the LCP. The majority of the parents in the district were not notified of the public comment period. How were the parents engaged other than the parent meetings in the district? We did not see a flyer for public comment period on peachjar, nor were the unduplicated families sent a text message, for those of us who may not have access to internet. The district cannot be cherry picking who they want to include in the LCP process and I have been advocating for the correct use of the supplemental funds for 2 years now, and I didn't know about the public comment for the LCP Sept. 3rd. So now, we cannot do live comments, and now, unless you are in the "inner circle" we are being excluded and silenced.
