Dear Board and John,

Please remind all teachers that social emotional learning needs to be part of their lesson planning, virtual teaching delivery methods, assessments, and overall work with students. This includes counselors. I have knowledge as a parent that some folks need SEL training.

Thank you. My public comment and feedback.

Dr. Rios

Hi my name is Lupita and I am a concerned parent. These meetings are inaccessible to unduplicated students and parents of unduplicated students. This is almost unethical. Granicus does not work on my computer and I do not have cable TV at home. Most families that are low-income cannot afford cable. Can you please use Zoom like everyone else in the county does, so that the parents can have the ability to live public comment please. Thanks.
