## Board Policy

### Energy And Water ~~Conservation~~Management

BP 3511

#### Business and Noninstructional Operations

~~The Board of Education is committed to reducing the district's demand for electricity and water in order to help conserve natural resources and to save money to support other district needs. To that end, the Board shall establish goals to help reduce the district's energy and water consumption.~~

~~The Superintendent or designee may establish an energy efficiency program which may include specific strategies designed to help the district use energy more efficiently and to help ensure that funds intended for student learning are not diverted to cover energy costs.~~

~~As part of the energy efficiency program, the Superintendent or designee shall develop an emergency action plan to address actions to be taken in the event of power outages in schools, both during and after school operations. The action plan shall also address the role of staff, students and parents/guardians in helping to conserve resources and other activities to help the district meet energy reduction goals.~~

The Governing Board recognizes the environmental and financial benefits that can be derived from conserving energy, water, and other natural resources, preparing for extreme weather and other natural events, and providing an environment that promotes the health and well-being of students and staff. To support district goals for energy and water management, the Superintendent or designee shall develop a resource management program which may include strategies for implementing effective and sustainable resource use practices, exploring the use of renewable and clean energy technology and/or sources, reducing energy and water consumption, and promoting conservation principles in the educational program.

(cf. 0200 - Goals for the School District)

(cf. 3100 - Budget)

(cf. 3300 - Expenditures and Purchases)

(cf. 3510 - Green School Operations)

(cf. 3511.1 - Integrated Waste Management)

(cf. 3512 - Equipment)

(cf. 6142.5 - Environmental Education)

The Superintendent or designee may solicit input from staff, students, and parents/guardians regarding the district's resource management program. The Superintendent or designee shall provide staff and students with training and guidance on best practices to achieve the district's goals, and may establish a reward program to recognize outstanding accomplishments.

(cf. 1150 - Commendation and Awards)

The Superintendent or designee shall regularly inspect district facilities ~~and~~, monitor operations, and make recommendations for maintenance and ~~capital expenditures~~repairs which may help the district reach its ~~energy and water~~ conservation ~~goals~~and management goals and improve efficiency.

(cf. 7110 - Facilities Master Plan)

(cf. 7111 - Evaluating Existing Buildings)

The Superintendent or designee shall make every effort to identify funding opportunities, ~~community involvement~~ and cost-reducing incentive programs, ~~including the exploration of community partnerships~~ to help the district achieve its conservation and management goals. The district may coordinate with other local or regional entities to capitalize on their expertise and maximize the efficient use of resources, such as through joint or shared use agreements.

(cf. 1330.1 - Joint Use Agreements)

(cf. 1400 - Relations Between Other Governmental Agencies and the Schools)

The Superintendent or designee shall ~~periodically~~regularly report to the Board on the district's progress in meeting ~~energy and water use reduction~~its conservation and resource management goals.

### Storm Water Management

To the maximum extent practicable, the district shall reduce the discharge of pollutants into the water system in order to minimize the threat to water quality from storm water runoff.

The Superintendent or designee shall ensure that the district complies with storm water discharge standards specified by any applicable General Permit coverage required by law, including all requirements of the Construction General Permit issued by the State Water Resources Control Board for any project that disturbs one acre or more of soil. (40 CFR 122.34).

(cf. 3514 - Environmental Safety)

(cf. 3514.1 - Hazardous Substances)

(cf. 3514.2 - Integrated Pest Management)

The Superintendent or designee shall develop a storm water management plan that complies with the provisions of the applicable permit and describes best management practices, design strategies, measurable goals, and timetables for implementation. The plan and a resolution authorizing its implementation shall be submitted to the Board for approval. (40 CFR 122.34)

For all projects, the district shall comply with any city or county ordinance that regulates drainage improvements and conditions. (Government Code 53097)
