Description of Proposed Service	
Name of Service:	<p>ELD/ELA and Math Summer and Saturday Academies. In addition, to enhance real world applications, students will have the opportunity to participate in various academic activities which may include but shall not be limited to the following: Outdoor academic excursions, college visitations, Youth Leadership Conferences, and Educational Camps.</p>
The Need (Include data & how service is supplemental to core program):	<p>There is a need to provide migrant funded summer school programs for K-12 students since the district does not provide a summer session. Most migrant students are present in the district during the summer months and have the opportunity to receive much-needed instructional time.</p> <p><u>ELD/ELA</u></p> <p>The full implementation of the Common Core State Standards and Smarter Balanced Assessment System in the 2015-16 school year may have provided challenges for some students, but in particular migrant students who may experience an inconsistent education. Some migrant students are English learners as well. These students will be challenged by the language of the assessment and its content. It may be necessary to provide after school instruction in ELD/ELA as well as technology/keyboarding to assist with learning gaps.</p> <p><u>Math</u></p> <p>In the event that data from the Smarter Balanced Assessment System demonstrate a need for instruction delivered in a supplemental service program specific math standards will be employed for migrant students who are struggling. In addition, local assessments will be used to monitor students' academic growth and to provide targeted instruction. In order to continue the academic support of migrant students during summer, they will be enrolled in the Math Summer School Academies, Math Workshops, or other Math Summer Programs.</p> <p><u>High School Graduation</u></p> <p>District data will be reviewed at the end of the 2015-16 school year to determine the exact percentage of high school migrant students in grades 10 and 11 who have not passed both the CAHSEE Math and English tests to graduate. Students needing supplemental support with one or both sections of the CAHSEE will be identified prior to the upcoming test date. This ensures students will receive the necessary services prior to the exam. Of significant interest is the number of high school migrant students who are credit deficient and not meeting high school graduation requirements. In addition, students who have below 2.5 GPA will receive targeted instruction. These data will support the need for</p>

summer supplemental services. The activities will be aligned with the regular school year curriculum and will focus on providing targeted academic intervention services in specific areas of weakness in ELA, Math and Technology. The supplemental services will also be aligned with the district graduation requirements.

How (describe the academic focus, the service and the strategies):

How

Provide direct content instruction that focuses on vocabulary development, reading fluency, and reading comprehension. When possible, provide technology, especially keyboarding, to prepare students for the Smarter Balanced Assessment System. The program will use small and large group instruction, and provide a blended model in lesson delivery, including ELD and SDAIE strategies when necessary.

K-8

All migrant students grades K through 8th will be enrolled in a thirty day summer school program that will be taught by highly qualified teacher(s) with a multiple subject credential. Those migrant students that are unable to attend the thirty day program will be enrolled in a 1 or 5 day Educational Academy that will focus on ELA and/or Math. They will also have the chance to participate in other Educational Camps or Excursions. Furthermore, seventh and eighth grade students will attend the Area 3 Writing Project for one week in June.

9th – 12th

In addition, migrant students in grades 9th through 10th will be enrolled in a 30 day summer school academy. The program will be taught by highly qualified single subject credential teacher(s). Those migrant students that are unable to attend the 30 day program will be enrolled in a 1 or 5 day Educational Academy that will focus on ELA and/or Math. They will also have the chance to participate in the Area 3 Writing Project at UC Davis for one week in June, other Educational Camps, Educational Excursions, and/or Post -Secondary Programs.

ELD/ELA

Teachers that possess a multiple subject or single subject credential with EL authorization will provide direct instruction that focuses on vocabulary development, reading fluency, and reading comprehension. The program will use whole and small group instruction, EL strategies, and provide a blended model in lesson delivery.

Math

Teachers that possess a multiple subject or single subject credential with EL authorization will provide direct instruction that focuses on improving district benchmark Math scores. The program will use whole and small group instruction, EL strategies, and provide a blended model in lesson delivery.

High School Graduation

High school students will be provided a multi-tiered approach that focuses on progress monitoring and targeted intervention. The program will use whole and small group instruction as well as provide individual support for those students who are struggling more than others. Technology use will be address throughout the supplemental services. The same pre and post assessments will be administered at the beginning and end of the program.

Pre and Post Assessments

Pre and Post assessments will be used in CAHSEE ELA and Math instruction, and credit recovery to monitor students' academic growth and progress toward graduation. When possible, local assessments will also be used to evaluate the supplemental service program.

	Program Evaluation Final student assessment results will be included in the CDE Program Evaluation Reports completed in collaboration with Migrant Education personnel. The evaluations will include instructional lesson plans which will be submitted upon completion of the program as well as individual student data.

30. The LEA may also use other measures to determine comparability such as comparing the average number of students per instructional staff or the average staff salary per student in each school receiving Title I, Part A or MEP funds with those in schools that do not receive Title I, Part A or MEP funds. If all the schools are served by Title I, Part A or MEP, a LEA must use state and local funds to provide services that, taken as a whole, are substantially comparable in each school. (20 U.S.C. 6321[c], PL 103-382, Section 1120[A]PL 103-382, Title XIV, Section 14101 [10] and Section 14501 [a])
31. The LEA may exclude schools with fewer than 100 students from its comparability determinations. The comparability requirements do not apply to an LEA that has only one school for each grade span. (20 U.S.C. 6321[c] PL 103-382, Section 1120[A] PL 103-382, Title XIV, Section 14101[10] and Section 14501[a])
32. The LEA has developed procedures for complying with comparability requirements and must maintain records that are updated biennially documenting compliance with those requirements. (20 U.S.C. Section 6321[c])
33. The LEA is required by federal regulations to develop procedures and maintain records that are updated biennially to document compliance with requirements in Section 1120A(c).

34. Annual documentation of implementation should include, but not limited to, calculations, a process or procedure that demonstrates how staff were distributed or assigned
