CONSULTANT agrees to execute all documents reasonably requested by CLIENT and to render, at CLIENT's sole expense, whatever reasonable assistance CLIENT may request to enable CLIENT to perfect its interest in and to such copyrights whether in the United States of America, its territories and possessions or elsewhere in the world. In the event such copyright materials cannot be considered WORKS made for hire under applicable laws, then CONSULTANT shall assign all copyrights (including copyright renewal rights) in and to such materials to CLIENT or to CLIENT's designee.

13. CLIENT reserves and shall have the right to assign this AGREEMENT to any other company controlled directly or indirectly by CLIENT upon reasonable prior written notice to CONSULTANT.
 - a. CONSULTANT shall not subcontract or assign this AGREEMENT or all or any part of the WORK or any claims which may arise under this AGREEMENT without the prior written consent of CLIENT, which consent may not be unreasonably withheld by CLIENT. Any subconsultant engaged by CONSULTANT to perform any part of the WORK hereunder shall agree to be bound by all the terms and conditions of this AGREEMENT to the same extent as CONSULTANT.
14. CLIENT or CONSULTANT may terminate this AGREEMENT at any time for any or no reason by giving thirty (30) calendar days prior written notice to the other party. Upon such termination, CONSULTANT agrees to stop the WORK and to forward to CLIENT all completed or uncompleted reports, drawings and other documents relating to the WORK. In the event of such termination, CLIENT shall be liable only for such costs and expenses as have accrued prior to the effective date of such termination plus such additional costs and expenses as are determined by CLIENT and CONSULTANT to be essential for terminating said WORK. Termination shall not affect CONSULTANT's obligation with respect to Sections 5, 10, 11 and 12 hereof relating to confidential and proprietary information and inventions, respectively.

15. It is expressly understood and agreed that neither party shall during the term of this AGREEMENT and for a period of two years from the termination of this AGREEMENT, attempt to employ, or employ persons in the employ of the other party.

 - a. CONSULTANT shall not access CLIENT computer facilities without the prior written approval of the CLIENT.
 - b. Upon completion of the WORK by CONSULTANT, CONSULTANT's employees or agents, under this AGREEMENT, CONSULTANT and/or CONSULTANT's employees or agents shall return to CLIENT all hardware, software or other documentation provided by CLIENT intended or used for purposes of the WORK to be performed by CONSULTANT under this AGREEMENT.
17. This AGREEMENT contains the sole and entire AGREEMENT between the parties hereto with respect to the consulting services to be provided by or on behalf of CONSULTANT as specified herein. Either party except those that are expressly set forth herein has made no warranties, representations, inducements or understandings, orally or in writing.

This AGREEMENT may not be amended or waived, in whole or in part, except by a written instrument signed by the duly authorized representatives of both parties hereto which specifically refers to the provision or provisions of this AGREEMENT which are amended or waived thereby and for what period of time, if any.

Any failure of either party to insist at any time on strict performance of any obligation or obligations of the other party on such party's part to be performed hereunder shall not be deemed a course of conduct or dealing on the part of the former party which would preclude such party from subsequently insisting on strict and complete performance by the other party of any such obligation or obligations or of any other obligation hereunder.

This AGREEMENT shall be governed by and construed in accordance with the laws of the State of California, without giving effect to its rules on the conflict of laws.

18. The CONSULTANT shall purchase and maintain policies of insurance with an insurer or insurers qualified to do business in the State of California and acceptable to CLIENT which will protect CONSULTANT and CLIENT from claims which may arise out of or result from CONSULTANT'S actions or inactions relating to this

AGREEMENT, whether such actions or inactions by CONSULTANT, its agents, employees, consultants or subconsultants, or by anyone directly or indirectly employed by any of them, or by anyone for whose acts or omissions any of them may be liable. The aforementioned insurance shall include the following:

- a. CONSULTANT shall carry Worker's Compensation and Employers Liability Insurance in accordance with the laws of the State of California.
 - b. Comprehensive general and auto liability insurance with limits not less than ONE MILLION DOLLARS (\$1,000,000) combined single limit, bodily injury and property damage liability per occurrence, and \$2,000,000 in aggregate, including:

 - 2) Broad form property damage;
 - 3) Products/completed operations; and
 - 4) Personal injury.
19. CONSULTANT shall indemnify, defend and hold CLIENT harmless from all claims, liabilities, damages or judgments involving a third party, including CLIENT'S costs and attorneys' fees, which arise as a result of CONSULTANT'S failure to meet any of its obligations under this Article.

IN WITNESS WHEREOF both parties hereto have caused this AGREEMENT to be executed as of the day and year first written above. The parties hereby affirm that this AGREEMENT accurately and completely reflects all of their understandings and agreements.

SCOPE OF WORK

Background:

The Board of Education and the Superintendent of the Davis Joint Unified School District (DJUSD) wish to implement a review of school safety as generally described in the DJUSD

Strategic Plan, in school sites' Comprehensive Safety Plans, in Board Policies and Administrative Regulations, and in district protocols. The DJUSD consists of 9 elementary schools, 4 junior high schools, 1 comprehensive high school, 1 charter high school, 1 continuation high school, and 1 K-12 independent study school. The Board and Superintendent authorized the development of a credible and comprehensive Security Assessment of all elementary and secondary school sites in the DJUSD beginning in 2015. The Board and Superintendent reinforce the priority and importance of school safety in these contemporary times, seeking a qualified and credible security consultant to support identifying reasonable and effective improvements in safety and security for students, faculty, staff, parents and community members on our campuses. The DJUSD has effective and multifaceted emergency communication and evacuation plans that are contained in district safety policy. The emergency communication and evacuation plans are updated and exercised at least annually, if not more often.

One primary and critical factor to consider in assessing comprehensive school safety is the ability to effectively protect open school sites from a violent intruder, either by diversion, delay, and obstruction, while immediately restricting access to classrooms and offices. As we plan for a safer environment we acknowledge that we do not envision a "fortress" mentality for our school environment but we are looking for cost-effective ways to reduce this rare threat.

DJUSD Vision for School Safety:

Our collective vision for personal safety ensures that we identify essential goals and objectives that support the development of reasonable and effective security measures. The implementation of new or evolved security measures is based on school site 'work styles' and group dynamics, considering the range of ages and capabilities among students in our schools.

We prefer an approach that is flexible and innovative in the design of security measures when assessing school sites. The recommendations should include security policy and security measures that are common to all school sites and also ones that may be unique to individual school sites. In addition, Davis is a unique community with a strong partnership between our schools and city public spaces such as parks, and therefore some measures will require the City's approval.

Personal Safety and emergency plans at the DJUSD must be integrated and comprehensive. We envision a strategic focus including goals, objectives, costs, and implementation that can be phased in over time and that continues to support learning.

Goals/Deliverables:

1. Obtain the services of a credible and expert security consulting entity whose background and experience shows extensive experience with the application of CPTED (Crime Prevention through Environmental Design) concepts, extensive experience in comprehensive security assessment for K-12 school districts, and a broad experience with security master planning. Consultant to present a summary of services and qualifications. Qualified applicants will be interviewed and asked to present references, licenses, insurance, etc.
2. The security assessment would include a review of policies, procedures, emergency plans, history, existing security reports or research, physical site designs, security incident reports, crime stats; interviews with DJUSD school security staff, administrators, Davis Police, school staff, parents, community; review all school sites to include all elementary, secondary schools and the District Office. Those sites and addresses shall include:

3. Consultant submits a draft report to the DJUSD 5 months (negotiable) from initiation of the project containing documentation of actions and prioritized recommendations from the comprehensive security assessment. Transport feedback generated by the draft report into the process, and prepare a final report.
4. Consultants prepare an executive summary and a communication medium that presents the report throughout the school district and other related interests.

Assumptions:

The DJUSD will ensure transparency in the security assessment process as appropriate and applicable to rules, regulations and legal standards.

Consultant will be compensated in a DJUSD contract outlining common standards for performance and delivery of goods and services.

A comprehensive security assessment is a credible and sound business practice.

Recommending and applying technological innovations and improvements in contemporary security measures is essential to effectiveness and lowering costs. As such, security assessments will take place from time to time or as determined.

Timeline:

The Superintendent recommends a timeline for completion of the schools security assessment to the Board of Education. A dynamic flexibility in planning for a security assessment is essential. The security assessment will commence in 2015 and successfully conclude in no more than 5 months.

The comprehensive school safety assessment may likely be conducted in stages beginning with the elementary schools.

The school safety work group, once established, will support the implementation and completion of the comprehensive security assessment.
