(I) School Discipline Rules and Consequences (EC 35291 and EC 35291.5)

North Davis Elementary School Student Conduct Code

Philosophy and Purpose:

There are two purposes for standards of student behavior in a school conduct plan: to promote learning and growth for students as they develop self-discipline, and to provide a caring and respectful environment for all.

In this context, teachers and principals are legally considered “parent/guardians on location.” This defines the relationship between school staff and their students. Students are young people, still learning what is right and wrong and learning how to behave consistently as mature people; therefore, it is age-appropriate to not always behave maturely. After being taught and corrected, even disciplined young people typically need to be re-taught about how to behave correctly in school, just as parents/guardians have to teach, and re-teach their children how to behave at home.

School staff regard all of their students as their children/youth to teach and to guide. Thus, just as in a home with parents/guardians, all students at school deserve to be treated consistently with care, hope, and positive disciplinary attitudes. Clear and firm consequences are part of this effort by school staff to educate and to correct student behavior.

The rights of all students are always part of this philosophy. Students deserve to have a psychologically and physically safe environment at school. These rights also mean that students who are accused of wrong doing have a right to be heard and to be respectfully treated even if the school staff determine the student should be disciplined.

Rights And Responsibilities:

The rights inherent in a democratic society can be maintained only if each individual assumes responsibility for his or her own behavior. Students have both rights and responsibilities.

Student Rights

- To be safe
- To be respected and be treated with compassion regardless of actual or perceived race, color, ancestry, national origin, ethnic group identification, age, religion, marital or parental status, physical or mental disability, sex, sexual orientation, gender, gender identity, gender expression, family structure, political beliefs, financial status, or association with a person or group with one or more of these actual or perceived characteristics
- To express opinions, ideas and feelings, keeping in mind the rights of others
- To hear and be heard
- To have property respected
- To be informed about what is expected of them
- To have privacy
- To be academically challenged

Student Responsibilities

- Take advantage of the academic opportunities offered, strive for high achievement, and support and participate in school activities
- Be knowledgeable regarding student rights and responsibilities
- Attend school regularly and punctually
- Follow the school rules

- Respect private and school property
- Be considerate and non-disruptive in classrooms, hallways, study areas, libraries, cafeteria and other eating locations, and buses
- Be clean and dressed in compliance with school rules of sanitation and safety, and in clothing appropriate to the educational environment
- Be considerate in relationships with students, teachers, and staff
- Be respectful of all students, teachers, and staff regardless of actual or perceived race, color, ancestry, national origin, ethnic group identification, age, religion, marital or parental status, physical or mental disability, sex, sexual orientation, gender, gender identity, gender expression, family structure, political beliefs, financial status, or association with a person or group with one or more of these actual or perceived characteristics
- Keep language and gestures respectful and free of profanity or obscenities
- Avoid the use of alcohol, tobacco, and other drugs
- Never carry or have access to weapons or other dangerous objects

Conduct Code Procedures

To proactively help all students, the principal/designee meets with students at the beginning of the school year to review and discuss with students the importance of a positive school climate, the positive purposes of school discipline, and the importance of respectful and caring behavior. Part of this leadership effort is accomplished through a school wide assembly or by visits to individual classrooms. The presentation includes explanations of behaviors that are encouraged and those that are not appropriate. The categories of disrespectful behaviors or offenses outlined in the attached table provide examples of what is not allowed.

When a more serious misbehavior, as listed on the “Guidelines for Responsive Discipline in Elementary/Secondary Schools” is reported or observed, the principal, teacher or supervisor conducts an investigation. This fact-finding process may include interviewing students alleged to have been involved (both the alleged offender/s and the alleged offended); interviewing witnesses if needed or appropriate, collecting written or physical evidence related to the incident and reviewing the records of the involved students. This process would include the consideration of past incidents and other relevant circumstances about the students primarily involved.

Explanations: consequences of student misbehavior

Detention:

Detention is the assignment of a student to a supervised area for a specified time before or after school, during recess, or during lunch. Supervision must be assigned to a certificated employee. The student shall be given adequate time to use the restroom, get a drink, or eat lunch.

Truancy Prevention:

School and District administrators review student attendance on a regular basis. Students with 3 unexcused absences or 3 tardies of more than 30 minutes are sent an initial letter declaring the student truant. A truancy conference will be scheduled with the School Principal and/or additional school interventions will be implemented. If a student has an additional unexcused absence or tardy more than 30 minutes a second letter declaring the student truant will be sent home and a truancy conference will be scheduled. If a student has an additional unexcused absence or tardy more than 30 minutes, a third letter declaring the student habitually truant will be sent home which will generate a police department response. At this point the police department may involve the District Attorney, County Probation Department, and County Health and Human Services in a student's case. Students and parents may face criminal prosecution.

Search and Seizure Policy:

The Search and Seizure Policy governs the District's authority to search individual students and their property. School officials may search when there is a reasonable suspicion the search will uncover evidence that the student is violating the law or the rules of the district or school.

Suspension:

Suspension is the removal of a student from the classroom for disciplinary reasons for a defined period of time by a teacher or a school administrator. A principal or designee may suspend a student from school for up to five consecutive days. A teacher may suspend for the remainder of the class in which the misbehavior occurred and for the next day's class. A suspension may be extended if the student is being brought up for expulsion. There are two kinds of suspension: In-school suspension and home suspension. Students placed on home suspension are not permitted on or near any DJUSD campus, are to remain under the supervision of the parents/guardians during the period of the home suspension, and are NOT allowed to participate in ANY school activities during the entire suspension period. Students assigned in-school suspension will not be allowed to participate in any school activities during the period of in-school suspension. For both in-school and home suspension students may be required to complete assignments and tests which will be made available to them through an intermediary.

Expulsion:

Expulsion is the removal of a student from DJUSD for violating the California Education Code as ordered by the Board of Education. The expulsion is for a defined period of time, but an application for readmission must be considered within a specified time period. State law provides for full due process and rights to appeal an order of expulsion.

Review and Evaluation of Safety Plan

The Governing Board recognizes that students and staff have the right to a safe and secure campus where they are free from physical and psychological harm. The Board is fully committed to maximizing school safety and to creating a positive learning environment that teaches strategies for violence prevention and emphasizes high expectations for student conduct, responsible behavior and respect for others.

The Superintendent/Principal or designee oversees the development of a comprehensive district-wide safety plan that identifies major safety concerns as well as the district's goals and priorities for safe schools. The plan includes violence prevention strategies and actions to be taken in the event of a crisis.

The school safety plan is reviewed, updated, and approved by site council by March 1 of each year.

The Board reviews the comprehensive District and School safety plans in order to ensure compliance with state law, Board policy, and Administrative Regulation and approves the plan at a regularly scheduled meeting of the Board.
