Alex Hess	DHS CTE Chair/Welding Instructor	Company Internship Experience
Brian Meyers	HMC-Principal Architect	K-14 DSA Project & LEED Experience
Kipp Gagosian	DSA- Inspector of Record	Working Relationship w/DSA

#### **Methodology of Review**

Each reviewer will examine the submitted proposal (SOQ/RFP) and rate each individual contractor on a rating scale of 0-5 (5 being exceptional, 0 being none responsive to the request for proposal) with a total possible value of 850. A weighted scale will be appointed to specific areas of the proposal (those areas of most important being weighted higher and less for lessor of importance. (See attached scoring sheet).

Once these proposals have been scored, I will then combine all rater information into a master matrix that will flush out the top four proposals for further consideration. Please note, we would like to hold follow-up interviews with these top four vendors the week of August 15-17 (expect 4 hours in total).

I would like to thank you all in advanced for supporting this process and scoring these proposals when they are presented.

George Parker  
Director Facilities, Maintenance & Operations
