☒ Site/Center-based

☐ Region-wide

What is the need for this service/allowable activity based on the data?

An average of 18% of Migrant students in Davis Joint Unified School District (DJUSD) in grades 3rd-12th scored standards met on the California Assessment of Student Performance and Progress (CAASPP) in English language arts. In math, an average of 18% of Migrant students scored standards met on CAASPP. The overall achievement gap between migratory and non migratory students is 51% in both ELA and Math. Through the creation of innovative programs that focus on academic and social and emotional learning the DJUSD staff will close this opportunity and achievement gap.

Plan

Describe the plan for this service/allowable activity

Key skills to be learned:

There is a need to provide additional academic opportunities to migrant students in Davis due to their migratory nature of moving in and out of the district for a great part of the year causing a significant interruption to their schooling. Davis Migrant Center is located approximately 10 miles outside the city limit of Davis and students require daily transportation. A Bus Attendant is also contracted in order to supervise students and insure safety

and communication as the bus driver is not always bilingual. Targeted instruction in reading, math and English Language Development will be the focus of the Migrant Summer Scholar Program. Music instruction and robotics are added components of the program structure in order to increase student engagement and provide enrichment opportunities. Migrant Summer Scholar Program staff will provide an intensive five week summer program at Marguerite Montgomery Elementary focused on language arts, math and integrated English Language Development through science and a robotics program K-6th grade. The level of instruction will be at students' identified instructional level based on the pre assessments the Assessment Teacher administers. The Assessment Teacher will also coach staff on analyzing assessment data in order to modify instruction and regroup students based on needs. Furthermore, the Assessment Teacher will administer post assessments. The demonstrator and staff analyze this data measure student growth and program effectiveness. In order to connect the learning in the classroom to real-life examples students will attend two academic excursions. Since Life Sciences will be the focus of ELD/Science units all students will have two culminating academic excursion activities that include the CA Railroad Museum and the Academy of Science in San Francisco.

All lessons of study within the program will be of cultural relevance to migrant students and culturally responsive to their needs. The materials and literature will be reflective and inclusive of their cultures and experiences. This spring, staff attended the California Association for Bilingual Educators (CABE) conference in search of reading materials and pedagogical approaches to target English Learners. The music program is also critical in building pride, awareness and appreciation of music especially 4th-6th graders will learn to play violin and are able to join our Mariachi Puente youth group.

After the conclusion of Migrant Scholar Program on July 20th, all Migrant students Kinder-6th grade will then participate in district summer "Power Up" program from July 23- August 10th.. Power up program is a 3 week Reading, Writing, Language Development and Math instruction targeted to meet the individual needs of each student.

Student/teacher ratio:

A total of four combination classes clustered kinder-1st, 2nd -3rd, 4th-5th and 6th will support all migrant students. Student to teacher ratio on average will be 15 to 1. A total of four teachers will provide direct and group instruction in the clustered classes in the area of English Language arts, Math, Integrated Science and ELD.

Instructional strategies:

Instructional strategies will include supplementary English language arts support and direct instruction in reading and writing. The goal is to target students scoring below or near standard in order to gain proficiency in grade level standards (Principle Strategy 1.0). During reading block students will read a variety of non-fiction texts that build content learning and help develop reading comprehension. Students will also receive instruction on how to ask and answer questions to demonstrate understanding of a text.

Student grouping method:

Small group instruction and rotations will take place across K-6th grade. Blocks of instruction will be small-group rotations to target reading, writing, phonics and spelling using balanced literacy strategies in the SONDAY reading and writing program. Imagine Learning and MobyMax computer based programs will be utilized in order to allow for small group rotations and differentiation to happen.

How instruction will be differentiated:

Instruction will be differentiated through small group instruction in order to ensure that students receive reading, math and English language development support at their specific and instructional level. Computer based programs such as Imagine Learning and MobyMax will also be used to support students gain extra practice at their instructional level.

Other strategies besides the SSDP strategies identified for the focus areas:

Integrating science and English language development is another instructional area of focus in order to support language development as well as exposure to Next Generation Science Standards (NGSS). Physical science units using the Lawrence Hall of Science's Curriculum will focus on exposure to Sound and Light in grades 2-3rd, Energy in grades 4th-5th and Simple Machines in 6th grade.

What SSDP strategies will be used to deliver this service/allowable activity?

English Language Arts

Mathematics

English Language Development

Strategies will be finalized once ELPAC initial and summative assessments become operational and data becomes available in 2018-19.

Student Engagement

What evidence-based curriculum will be used in this instructional service?

California Common Core State Standards are the foundation of teaching and learning and will be the focus of instruction. These standards will be supported through the use of the following programs to build lessons and supports:

- Benchmark Advance (district adopted)
- SONDAY System
- Lawrence Hall of Science's Curriculum

Service/Allowable Activity Staff Development

What are the specific staff development activities?

Professional Development on SONDAY System reading and writing program in order to effectively use program components and assessments to measure student progress over time.

California Association for Bilingual Education Conference March 28th -31st, 2019- One Summer school teacher will attend this conference.

What dates approximately will the staff development take place?

Date
06/2019

Service/Allowable Activity Evaluation Plan

What is the expected outcome specific to this service/allowable activity?

Students will increase in reading and writing proficiency in order to meet grade level Common Core State Standards in language arts and in math in order to close the achievement gap. Students will move from standards not met to standards met or exceeded on California Assessment of Student Performance and Progress (CAASPP).

Section 10: Identification and Recruitment

For this section include any and all Identification and Recruitment (I&R) activities that will be provided during the school year

Eligible migrant students will be identified and recruited in a proper and timely manner.

To qualify for the Migrant Education Program, a child is considered "migratory" if his or her parent or guardian is a migratory worker in the agricultural, dairy, lumber, or fishing industries or the child is actually a migratory out-of-school youth (OSY) who works in agricultural, dairy, lumber, or fishing industries. In addition, the youth or family must have a qualifying move during the past three years. A qualifying move can range from moving across school district boundaries or from one state to another for the purpose of finding temporary or seasonal employment. The eligibility period for the MEP is three years from the date of the last move, and eligibility is established through an interview conducted by a migrant education recruiter who visits the home, employment, or other community locations.
