

The Single Plan for Student Achievement

School: Ralph Waldo Emerson Junior High School
CDS Code: 57726786066245
District: Davis Joint Unified School District
Principal: Scott Thomsen
Revision Date: May 30, 2018

The Single Plan for Student Achievement (SPSA) is a plan of actions to raise the academic performance of all students. California Education Code sections 41507, 41572, and 64001 and the federal Elementary and Secondary Education Act (ESEA) require each school to consolidate all school plans for programs funded through the ConApp and ESEA Program Improvement into the SPSA.

School Vision and Mission

Ralph Waldo Emerson Junior High School's Vision and Mission Statements

Emerson Mission/Values Statement

We value and support the whole child in the learning process.

We value high academic achievement.

We value a connected, caring school community.

Emerson Vision Statement

By creating a caring, connective community where we value the whole child, all students can achieve at high levels.

Principal's Vision:

Academic Excellence for All

A College & Career-going Culture

An Engaged, Supportive, and Exciting Campus

School Profile

Emerson Junior High opened in the 1979 - 1980 school year at its current campus. We share a campus with Da Vinci Charter Academy, a Project-Based Learning Charter School. Our mascot is the Eagle and our colors are gold, black and white. We have approximately 465 students on our campus in the Emerson program. Our campus has been the site of numerous school and community events through the years due to its expansive Indoor Commons area. Our students have core academic classes (English, math, social studies, science and PE) and have access to numerous elective classes, including foreign language, industrial technology, art, music, and drama. We have an intramural sports program at lunch and an after-school organized sports program in which all students can participate. Our After School Academic Program (ASAP) happens every day Monday through Thursday with UC Davis tutors and Emerson teachers to provide students extra academic support. We share a campus and elective classes with Da Vinci Charter junior High School.

Every 7th grade student goes through our Diversity Training, which is produced by our Peer Helping class. Our Leadership class puts on many in-school contests and competitions throughout the year. We rank high in our State testing scores, but are working diligently to improve our approach with students who may not be performing as well as they could. Our staff is composed largely of veteran teachers who have decades collectively in working with this outstanding age group.

Comprehensive Needs Assessment Components

Data Analysis

Please refer to the School and Student Performance Data section where an analysis is provided.

Surveys

This section provides a description of surveys (i.e., Student, Parent, Teacher) used during the school-year, and a summary of results from the survey(s).

During the 2017-2018 school year, students again participated in the Youth Truth survey. We saw significant growth in the student-teacher relationship area. Climate Committee has been focusing on building opportunities for building relationships outside the classroom with Student/Teacher activities during lunch and rallies. An area of focus found in the Youth Truth survey was that of academic rigor. As defined by the survey, Academic Rigor focuses on things like relevance of instruction, connection to the lives of students and the outside world. Throughout the year, Emerson Staff participated in professional development surrounding Restorative Practices, Trauma-Informed Care, and AVID strategies to build more connections.

Classroom Observations

This section provides a description of types and frequency of classroom observations conducted during the school-year and a summary of findings.

Classroom observations were conducted by administration throughout the year. Administration and counseling visit classrooms to maintain a presence to staff and students.

Analysis of Current Instructional Program

The following statements are derived from the Elementary and Secondary Education Act (ESEA) of 1965 and Essential Program Components (EPCs). In conjunction with the needs assessments, these categories may be used to discuss and develop critical findings that characterize current instructional practice for numerically significant subgroups as well as individual students who are:

- Not meeting performance goals
- Meeting performance goals
- Exceeding performance goals

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration should be given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

Standards, Assessment, and Accountability

1. Use of state and local assessments to modify instruction and improve student achievement (ESEA)

Emerson uses both state and local assessments to modify instruction and improve achievement. Assessments include the SBAC, CELDT, and other formative content-embedded assessments

2. Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

Teachers use content-embedded assessments to modify instruction and assess progress.

Staffing and Professional Development

3. Status of meeting requirements for highly qualified staff (ESEA)

Emerson has a highly qualified staff under the NCLB requirements.

4. Sufficiency of credentialed teachers and teacher professional development (e.g., access to instructional materials training on SBE-adopted instructional materials) (EPC)

Emerson staff participates in both district led and professional development offered by outside organization focused on instructional delivery and school climate.

5. Alignment of staff development to content standards, assessed student performance, and professional needs (ESEA)

Staff development offered by the site and district focuses on topics designed to improve both instruction and school climate.

6. Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)

Emerson would like to access more coaching resources in the area of mathematics.

7. Teacher collaboration by grade level (kindergarten through grade eight [K–8]) and department (grades nine through twelve) (EPC)

Emerson staff participates in 7-12 articulation twice a year. In addition, the Emerson staff participates in 6-7 articulation meetings by subject area. This year's focus was on developing Math placement criteria for incoming seventh grade students.

Teaching and Learning

8. Alignment of curriculum, instruction, and materials to content and performance standards (ESEA)

9. Adherence to recommended instructional minutes for reading/language arts and mathematics (K–8) (EPC)

10. Lesson pacing schedule (K–8) and master schedule flexibility for sufficient numbers of intervention courses (EPC)

11. Availability of standards-based instructional materials appropriate to all student groups (ESEA)

12. Use of SBE-adopted and standards-aligned instructional materials, including intervention materials, and for high school students, access to standards-aligned core courses (EPC)

Opportunity and Equal Educational Access

13. Services provided by the regular program that enable underperforming students to meet standards (ESEA)

14. Research-based educational practices to raise student achievement

Parental Involvement

15. Resources available from family, school, district, and community to assist under-achieving students (ESEA)

The Emerson After School Study Space program helps support all students in meeting their academic challenges. This program is offered 4 days a week in the Emerson library after school. This program is staffed by certificated staff. .

16. Involvement of parents, community representatives, classroom teachers, other school personnel, and students in secondary schools, in the planning, implementation, and evaluation of ConApp programs (5 California Code of Regulations 3932)

Funding

17. Services provided by categorical funds that enable underperforming students to meet standards (ESEA)

18. Fiscal support (EPC)

Description of Barriers and Related School Goals

Emerson Junior high was built in 1979 and has never been fully modernized. Our science rooms, in particular, present a barrier to our teaching staff in their ability to deliver 21st century content. As a small school, we are restricted somewhat by limited teaching areas.

Conclusions based on this data:

1. While our school overall is maintaining in these areas, our hispanic and low SES students either declined or significantly declined in ELA
2. 15-18% of our 7th grades are not meeting proficiency in different aspect of the ELA assessments.
3. Overall, we are seeing similar scores, but a persistent 10-15% gap with those that score below standard.

Conclusions based on this data:

1. In English Language Arts, our 8th graders maintained high performance in grade 8, with 80% of our students meeting or exceeding the ELA standards on the 15-16 school year SBAC test. Our 7th graders experienced a decline, with the number of students meeting or exceeding the standards in ELA dropping from 75% to 67%.
2. In Math, our 7th graders showed slight improvements, but 8th graders declined
3. Overall, we are seeing similar scores, but a persistent 10-15% gap with those that score below standard.

Planned Improvements in Student Performance

School Goal #1

The School Site Council has analyzed the academic performance of all student groups and has considered the effectiveness of key elements of the instructional program for students failing to meet student performance targets. As a result, it has adopted the following school goals, related actions, and expenditures to raise the academic performance of students not yet meeting state standards:

SUBJECT: Closing the Achievement Gap
LEA GOAL:
DJUSD educators will close the achievement gap.
SCHOOL GOAL #1:
By targeting in-class instructional methods and continuing to support our struggling students, Emerson aims to significantly reduce the achievement gap at our site in the 2018-2019 school year. Our site council has prioritized areas of focus in order to ensure that our students that have faced historical and institutionalized barriers to success in school can meet academic expectations and be proficient. The council is directing the bulk of the goals and funding to campus-wide in-class support and professional development.
Data Used to Form this Goal:
Date used to form this goal: CAASPP results, class performance, LPAC Initial Results, EL Reclassification Data, AVID Program Data Our Socioeconomically disadvantaged percent in 2017-2018 is 18.8%, Some of these students are served through a variety of different support mechanisms, such as Special Education or 504s or EL support services , but some of these students represent our underserved or students in the achievement, or opportunity, gap.
Findings from the Analysis of this Data:
The data analysis showed that we continue to see results that fall below proficient range for students of color, low SES, and Special Education Students, While we are making improvements, more must be done in classes across all curriculums so that all students have the opportunity and resources available to be successful.
How the School will Evaluate the Progress of this Goal:
Annually evaluate LPAC progression; use data to target instruction; use grade and CAASPP data to monitor improvements and provide feedback; monitor and address struggling students on a 4-week timeline (progress reporting). Counselors and teachers will identify students who need intervention assistance based on the above listed criteria. We will monitor student progress and grades each grading period via the counseling office. We will use the RTI methodology of good first instruction and then appropriate interventions. We hold grade levels on a monthly schedule to monitor and target intervention to students who are struggling with their academic, social or emotional needs. Teachers involved in the new TSI model will identify, assess, intervene, and reassess students identified in monthly Grade Level meetings and at weekly Admin RTI meetings.

Planned Improvements in Student Performance

School Goal #2

The School Site Council has analyzed the academic performance of all student groups and has considered the effectiveness of key elements of the instructional program for students failing to meet student performance targets. As a result, it has adopted the following school goals, related actions, and expenditures to raise the academic performance of students not yet meeting state standards:

SUBJECT: Inclusive and Safe School Environments
LEA GOAL:
All classrooms and school communities will be safe and inclusive environments.
SCHOOL GOAL #2:
Our current reality is that we have a safe school. Overall our students feel connected to the community and school based on their responses in the CA Healthy kids survey, and the Youth Truth survey. The areas of intense focus will be increasing a feeling of positive school climate through school connectedness and positive relationships with adults on campus. Our suspensions and referrals are down as we have moved to a more relational- and restorative-based discipline process. We continue to support Where Everybody Belongs (WEB), Peer Helping, and Diversity training to keep students connected to school and engaged in safe, positive behaviors.. Based on Climate survey data, the Youth Truth survey and other metrics, we are focusing attention on increasing school connectedness. Based on our Youth Truth survey results, we see increased school connectedness in grade 7 and 8, but a continuing downward trend in grade 9. By incorporating more career and college awareness on campus, our hope is to connect with our 9th grade students as they prepare to go the the senior high school. It is our intention to involve more student voice in this area, through student government, Site Council with student representation, and the site climate committee.
Data Used to Form this Goal:
School and District rules and procedures; Attendance data; climate surveys; evaluations from WEB and Diversity trainings; Suspension and referral data; feedback from all stakeholders (surveys), rates of athletics and attendance rates in activities.
Findings from the Analysis of this Data:
There has been much research to support the idea that safe, positive schools increase the ability of students to learn and promote learning. We know we must monitor our data to see how effective we are in meeting our goals.
How the School will Evaluate the Progress of this Goal:
Feedback from counselors and administration. Feedback from students, staff, and parents. Evaluation of discipline data.

Currently there are forty students and ten staff who are trained in SSA practices.</p> <p>From the Community Matters website: "At its core, the Safe School Ambassadors program is an "inside-out" approach to improving school climate, one that relies on social norms change and the power of students to help stop bullying and violence. Student bystanders see, hear, and know things adults don't, can intervene in ways adults can't and are often on the scene of an incident before an adult. They are a critical and under-utilized resource for positively impacting the crisis of bullying in our schools."</p>	<p>Start: October 2017 End: June 2020</p>	<p>Principal, SSA Team</p>	<p>Emerson is in year two of a three-year grant from Community Matters.</p>

Planned Improvements in Student Performance

School Goal #3

The School Site Council has analyzed the academic performance of all student groups and has considered the effectiveness of key elements of the instructional program for students failing to meet student performance targets. As a result, it has adopted the following school goals, related actions, and expenditures to raise the academic performance of students not yet meeting state standards:

SUBJECT: 21st Century Teaching & Learning
LEA GOAL:
All students will experience 21st Century Teaching and Learning.
SCHOOL GOAL #3:
In the 2018-2019 school year, Emerson will support critical thinking, problem solving, creativity and innovation through all curriculums. We will maintain our current ratios of Chromebooks to students. All Emerson staff will use SchoolLoop to keep students and families current on assignments and grades. We will research and implement an Advisory program by which students can set goals, monitor their learning, and discuss future plans and pathways one on one with staff four times per year. We will expand our professional development to include collaborative elements in all classes.
Data Used to Form this Goal:
Technology site plan, library resources, staff discussions around Advisory program.
Findings from the Analysis of this Data:
How the School will Evaluate the Progress of this Goal:
Class syllabi and curriculum overview, student work sharing at staff professional development, student grades, YouthTruth survey (rigor and connectedness component)

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

Name of Members	Principal	Classroom Teacher	Other School Staff	Parent or Community Member	Secondary Students
Scott Thomsen	X				
Sumiko Hong				X	
Mary Ruiz				X	
Jason Teves		X		X	
Camica Edwards			X		
Ximena Diez-Jackson			X		
Ryan Galles				X	
Numbers of members of each category:	1	3	2	3	

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Recommendations and Assurances

The school site council (SSC) recommends this school plan and Proposed Expenditure(s) to the district governing board for approval and assures the board of the following:

1. The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.
2. The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the Single Plan for Student Achievement (SPSA) requiring board approval.
3. The SSC sought and considered all recommendations from the following groups or committees before adopting this plan **(Check those that apply)**:
